Except I didn't know
about this document
until a few weeks ago
Its looking good

- Why this concern as target of an audit
- Sources of data
- Criteria to review the data against and set criteria and standards
- Identify areas for improvement
- Implement the improvements
- Assess the impact of those improvements

To paraphrase some good advice found at:

<https://www.nice.org.uk/media/default/About/what-we-do/Into-practice/principles-for-best-practice-in-clinical-audit.pdf>

And <https://www2.health.vic.gov.au/hospitals-and-health-services/quality-safety-service/credentialing/partnering-for-performance/clinical-practice-toolkit>
