

# COVID-19

## WHAT DOES SELF ISOLATION MEAN?

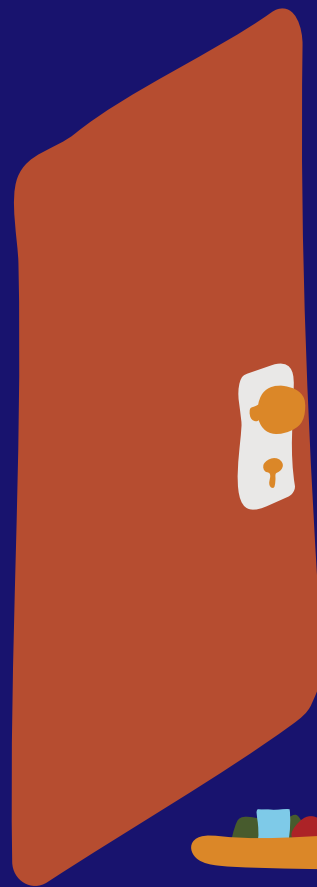

Isolation or quarantine is a Kartiya word for being by yourself away from everyone. If the clinic mob think someone might have COVID-19 or if they do have it they will ask them to stay away from other people to stop the spread of this sickness.

**Talk to your family about what you would do if someone gets sick in your house.**

**Sick person stays in one room.  
Everyone else in other rooms.**

You could have the person who might have COVID-19 sleep:

**Food and drinks  
are brought to the door**

**Yarn with family from the bed, with family  
sitting outside the door.**
